5 FEB 1959

1. There is a requirement for the development of a long-term power source for powering communications equipment. A proposal for a thermoelectric generator, to be used as a battery charger, has been received from [redacted] and is attached.

25X1

2. The proposal has been reviewed and is considered acceptable as amended by verbal agreement. The verbal agreement is that propane gas will be used instead of leaded gasoline and that the generator will be used specifically for charging batteries rather than delivering its power to a fixed load.

3. A basic contract, RD-130, has been established with the [redacted] and this development may be assigned as Task Order 3. It is requested that this task be negotiated in accordance with the attached proposal as amended in Paragraph 2. Attached also is Requisition No. MEB 59-304, indicating that the allotment to be charged for this work is 9/7900-10-652. Funds in the amount of \$46,525.00 have been encumbered for this project. Agency association with the Task Order is classified SECRET. The reports and equipment to be delivered under this task order, however, are UNCLASSIFIED. The project engineer is [redacted]
